

30. September - 1. October 2024

Location: Free University Berlin,
Garystr. 35
Konferenzraum II in Henry-Ford-
Bau
14195 Berlin

Organisation:

Dr. Anna Fruhstorfer
Dr. Rebecca Kittel
Prof. Dr. Michelle Torres

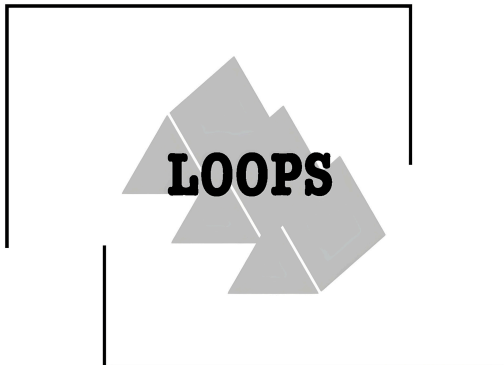

This project has received funding from the European Research Council (ERC) under the European Union's Horizon Europe research and innovation programme, grant agreement number 101040163.

This workshop was supported by flexible funds (provided by the Division of International Affairs to establish research and teaching projects with international partners at Freie Universität Berlin) and through the equal-opportunity funds of the Institute of East European Studies.

Workshop

How Image-As-Data Approaches Can Help Analyzing Protest and Its Organization: Methods and Applications.

30. September - 1. October 2024

Co-funded by the
European Union

Day 1: Monday, 30. September 2024

09:00-09:30: Welcome by Anna Fruhstorfer & Rebecca Kittel

09:30-10:30: Session 1

Dorđe Milosav: Confrontational Forms of Climate Protests and Support for Climate Action

Lena Masch: From Streets to Screens: Classifying and Understanding Visual Portrayals of Climate Protests through Automated Image Analysis

10:30-10:45 Coffee Break

10:45-11:45: Session 2

Alejandro Aisa: Tactical diversity within protest events: An image-to-data analysis

Winnie Xia: Framing the protests: Media bias behind gender and violence

11:45-12:45: Session 3

Oliver Rittmann : A Measurement Framework for Computationally Analyzing Politicians' Body Language

Andreu Casas: Supervised Multimodal Classification for Political Science Research

12:45-13:45: Lunch Break

14:00-15:30: Session 4 & Session 5

Matteo Magnani: Leveraging Foundation Models for Adaptive Image Clustering

in the Analysis of Online Protest Communication

Justin Chun-ting Ho: Analysis of Protest Frames using Large Visual Models

Rebecca Kittel: Detection of Organisational Frames Using Automated Image Classification

15:30-15:45: Coffee Break

15:45-16:45: Session 6

Delia Dumitrescu: The Visual-Verbal Framing of the European Farmers Protests in Early Spring 2024: a Cross-European, Computer-Assisted Multimodal Analysis with AMMICO

Zachary Steinert-Threlkeld: Towards an Understanding of Emotions, Age, and Protest Dynamics with Computer Vision

17:00-18:00: Keynote by Michelle Torres

19:00: Dinner at Restaurant

Day 2: Tuesday, 01. October 2024

09:30-10:30: Session 7

Matías Piqueras: A Visual Structural Topic Model with Applications in Political Communication

Deren Onursal: Emotional Protester Perspective: Protest out of ANger or Stay home in Fear?
